WELCOME TO THE INTERNATIONAL CONGRESS ON GRAPEVINE AND WINE SCIENCES

On behalf of the Organizing and Scientific Committees, we are pleased to invite you to attend the INTERNATIONAL CONGRESS ON GRAPEVINE AND WINE SCIENCES (ICGWS) to be held in Logroño.

In November 2018 and coinciding with the tenth anniversary of its creation, the Institute of Grapevine and Wine Sciences (ICVV) organizes an international congress in the heart of the Rioja DOC, that aims to serve as a platform for interrelating the most relevant researchers of the international sphere in Grapevine and Wine Sciences. The congress will dedicate sessions to vine protection, genetic diversity and breeding, production management, vine physiology, oenological microbiology, sensorial evaluation and oenological chemistry and technology.

In order to provide a multidisciplinary experience to the participants, the program will cover the main and most current research topics in this field, and all activities will be plenary. Registered people will have the opportunity to present the results of their recent research, in either oral or poster communication.

This scientific event is also open to professionals of the sector who want to catch up with the latest advances in grapevine and wine research. Simultaneous translation from English (official language of the congress) into Spanish will be available.

Furthermore, the social program and technical visits will allow our visitors to enjoy the gastronomy, the landscape and the culture of this region with winemaking vocation and tradition.

Looking forward to seeing you in Logroño.

Best regards,

The Organizing Committee
